

SMARTER TECH FOR
AMBITIOUS BUSINESS

Business Resilience

Eliminate the risk of downtime

The ability to access your data whenever you want is second nature.

If a disaster strikes, business continuity is disrupted and it can be detrimental.

A stolen laptop, a cyber security breach or even water-damaged hardware can cause temporary or complete data loss if you don't have your data backed up frequently and can't restore it.

How much downtime can your business afford?

efex Business Resilience ensures you can recover your data and return to normal operations ASAP.

A scalable, reliable solution that's 'always on'

Regular back ups

Data is routinely backed up as frequently as you need it to be

Quick recovery

Best-in-class software kicks in to recover your lost data efficiently

Back to business fast

Your down-time and cost for lost data are minimal if at all
