

The first of its kind in Australia, efex Medi Comms is the ideal solution for healthcare providers seeking a comprehensive communication platform to meet the dynamic needs of their clinic with features like call diversion, call recording, HotDoc integration and more.

Simple, flexible & affordable

With a range of mix & match tiers available, efex Medi Comms is purposefully designed to be user-friendly and dependable — keeping you seamlessly connected with both your team and your patients.

efex Medi Comms is built on our five pillar foundation

Security. Located on a secure cloud-hosted system that's data encrypted.

Automatic failover. Back up servers across Australia utilise specially designed algorithms to monitor performance. In the case of an event, your active call switches to an alternative data centre and you won't even notice.

Uptime. Rated to 99.99% which is approved for government & military contractual requirements.

Scalable. Pathways to change or upgrade when your clinic needs to scale.

Call quality. A second to none end-to-end user experience with HD voice quality.
